Safety Data Sheet

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH)

Revision Date 15-Nov-2022 Version 71 Supercedes Date: 13-Sep-2022

Section 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1. Product Identifier

Product code

Product name

PE/P/Q FTX BEIGE RAL 1019 HR

1.2. Relevant identified uses of the substance or mixture and uses advised against

10711

Recommended use Paint, Coatings

1.3. Details of the supplier of the safety data sheet See section 16 for more information

The Valspar (Switzerland) Corporation AG European Headquarters Rosengartenstrasse 25 8608 Bubikon CH-SWITZERLAND

Only Representative (OR) for imports only: Valspar B.V. Zuiveringweg 89 8243 PE Lelystad The Netherlands GPSReach@sherwin.com Member Company of Sherwin Williams

For further information, please contact

E-mail address sdshelpdesk@valspareurope.com

1.4. Emergency telephone number

24 Hour Emergency Phone Number

Section 2: HAZARDS IDENTIFICATION

2.1. Classification of the substance or mixture

Regulation (EC) No 1272/2008

Chronic Aquatic Toxicity

Category 3 - (H412)

2.2. Label Elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard statements

H412 - Harmful to aquatic life with long lasting effects EUH210 - Safety data sheet available on request EUH212 - Warning! Hazardous respirable dust may be formed when used. Do not breathe dust.

PRECAUTIONARY STATEMENTS - EU (§28, 1272/2008)

P202 - Do not handle until all safety precautions have been read and understood

P233 - Keep container tightly closed

P273 - Avoid release to the environment

P308 + P313 - IF exposed or concerned: Get medical advice/attention

P391 - Collect spillage

P501 - Dispose of contents/ container to an approved waste disposal plant

2.3. Other Hazards

Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.2. Mixtures

| Chemical name | CAS No | Weight-% | EC No | Classification according to Regulation (EC) No. 1272/2008 [CLP] | REACH registration number | Note: |
|---|--------|-------------|-----------|---|---------------------------------|-------|
| Propanedioic acid, [[3,5-bis(1,1-dimethyleth yl)-4-hydroxyphenyl]met hyl]butyl-, bis(1,2,2,6,6-pentameth yl-4-piperidinyl) ester | | 0.1 - < 0.3 | 264-513-3 | STOT RE 1 (H372) Acute Tox. 4 (H302) Aquatic Chronic 1 (H410) | 01-2119978231-37 | - |

Full text of H- and EUH-phrases: see section 16

Additional information

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs or vPvBs or have been assigned a workplace exposure limit and hence require reporting in this section.

Section 4: FIRST AID MEASURES

4.1. Description of first aid measures

General Advice

IF exposed or concerned: Get medical advice/attention

Eye Contact

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

If eye irritation persists: Get medical advice/attention

Skin contact

Rinse skin with water/shower If skin irritation occurs: Get medical advice/attention

INHALATION

IF INHALED: Call a POISON CENTER or doctor if you feel unwell

INGESTION

Do NOT induce vomiting IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell

4.2. Most important symptoms and effects, both acute and delayed

Symptoms

No information available.

4.3. Indication of any immediate medical attention and special treatment needed

Note to doctors

Treat symptomatically

Section 5: FIRE FIGHTING MEASURES

5.1. Extinguishing media

Suitable Extinguishing Media

Water spray (fog) Carbon dioxide (CO2) Alcohol resistant foam Dry chemical

Not to be used for safety reasons: Inert gas under high pressure (e.g. CO2), water jet (Do not use if package is open or torn)

5.2. Special hazards arising from the substance or mixture

Burning produces heavy smoke Fire may produce irritating and/or toxic gases In the event of fire and/or explosion do not breathe fumes

5.3. Advice for firefighters

Wear self-contained breathing apparatus and protective suit Cool containers with flooding quantities of water until well after fire is out Do not allow run-off from fire-fighting to enter drains or water courses

Section 6: ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures

Personal Precautions

Remove all sources of ignition Do not breathe dust Use personal protective equipment as required Keep people away from and upwind of spill/leak Avoid contact with skin, eyes or clothing

For emergency responders

Use personal protection recommended in Section 8

6.2. Environmental precautions

Do not allow into any sewer, on the ground or into any body of water If the product contaminates lakes, rivers or sewage, inform appropriate authorities in accordance with local regulations Prevent further leakage or spillage if safe to do so Local authorities should be advised if significant spillages cannot be contained

6.3. Methods and material for containment and cleaning up

Methods for Containment

Prevent further leakage or spillage if safe to do so

Methods for Cleaning Up

Dispose of waste product or used containers according to local regulations Do not use a dry brush as dust clouds or static can be created Dam up Pick up and transfer to properly labelled containers Clean contaminated surface thoroughly Contain and collect spillage with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13)

6.4. Reference to other sections

See Section 8 for information on appropriate personal protective equipment See Section 13 for additional waste treatment information

Section 7: HANDLING AND STORAGE

7.1. Precautions for safe handling

Advice on safe handling

Precautions should be taken to prevent the formation of dusts in concentrations above flammable, explosive or occupational exposure limits. Operators should wear anti-static footwear and clothing and floors should be of the conducting type. Use personal protection recommended in Section 8. Comply with the health and safety at work laws. Prevent product from entering drains. Use only with adequate ventilation. Do not breathe dust/fume/gas/mist/vapours/spray.

General hygiene considerations

When using do not eat, drink or smoke. Wash contaminated clothing before reuse. Avoid contact with skin, eyes or clothing.

7.2. Conditions for safe storage, including any incompatibilities

Storage Conditions

Keep/store only in original container. Store in accordance with local regulations. Keep unauthorised personnel away. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Keep container tightly closed in a dry and well-ventilated place.

Incompatible materials

Strong oxidising agents

7.3. Specific end use(s)

Recommended use

Paint Coatings

Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters

Exposure Limits

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

8.2. Exposure controls

8.2.1 Appropriate Engineering Controls

Engineering controls

Ensure adequate ventilation, especially in confined areas Provide local exhaust ventilation In case of insufficient ventilation, wear suitable respiratory equipment Do not breathe dust

8.2.2 Individual protection measures, such as personal protective equipment

Eye/Face Protection

Wear safety glasses with side shields (or goggles)

Skin and Body Protection

Wear suitable protective clothing

Care should be taken in the selection of protective clothing to ensure that inflammation and irritation of the skin at neck and wrists through contact with the powder are avoided

Hand protection

There is no one glove material or combination of materials that will give unlimited resistance to any individual or combination of chemicals

Ensure that the breakthrough time of the glove material is not exceeded. Refer to glove supplier for information on breakthrough time for specific gloves

The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed

Gloves should be replaced regularly and if there is any sign of damage to the glove material

Always ensure that gloves are free from defects and that they are stored and used correctly

The performance or effectiveness of the glove may be reduced by physical / chemical damage and poor maintenance Wear protective gloves

| Break through time | > 240 minutes Estimated |
|--------------------------|-------------------------|
| PPE - Glove material | Glove thickness |
| Neoprene™ | > 0.56 mm |
| Butyl rubber | > 0.36 mm |
| Fluoroelastomer | > 0.51 mm |
| Nitrile rubber | > 0.56 mm |
| Natural rubber | > 0.48 mm |
| Polyvinyl chloride (PVC) | > 0.25 mm |

Respiratory Protection

When workers are facing concentrations above the exposure limit they must use appropriate certified respirators

Thermal Protection

8.2.3 Environmental exposure controls

Do not allow into any sewer, on the ground or into any body of water Local authorities should be advised if significant spillages cannot be contained

Section 9: PHYSICAL AND CHEMICAL PROPERTIES

| 9.1. Information on basic physical a | nd chemical properties |
|--------------------------------------|----------------------------------|
| Physical State | Powder |
| Appearance | No information available |
| Odour | Odourless |
| Colour | No information available |
| Odour threshold | No information available |
| PH | No information available |
| Melting point/freezing point | No information available |
| Boiling point / boiling range | No information available °C / °F |
| Flash Point | 400 °C / 752 °F |
| Method | |
| Evaporation Rate | No information available |
| Flammability (solid, gas) | No information available |
| Flammability limit in air | |
| Upper flammability limit: | No information available |
| Lower flammability limit | No information available |
| Vapour pressure | No information available |
| Vapour Density | No information available |
| Specific gravity | 1.43 |
| Solubility(ies) | No information available |
| Partition coefficient | No information available |
| Autoignition Temperature | No information available |
| Decomposition temperature | No information available |
| Kinematic viscosity | No information available |
| Dynamic viscosity | No information available |
| Explosive Properties | No information available |
| Oxidising Properties | No information available |
| | |
| 9.2. Other information | |
| Molecular Weight | No information available |

Molecular Weight Minimum ignition energy (MIE) dust deflagration index (Kst) Minimum Explosive Conc. (g/m³)

Section 10: STABILITY AND REACTIVITY

3 - 50 mJ (typical range) 100 - 199 bar*m/s (typical range)

20 - 70 (typical range)

10.1. Reactivity

No information available

10.2. Chemical stability

Stable under normal conditions

Explosion Data Sensitivity to Mechanical Impact Sensitivity to Static Discharge No information available.

10.3. Possibility of hazardous reactions

| Hazardous polymerisation | None under normal processing |
|--------------------------|------------------------------|
|--------------------------|------------------------------|

- Possibility of hazardous reactions None under normal processing
- 10.4. Conditions to avoid

Heat, flames and sparks

10.5. Incompatible materials

Strong oxidising agents

10.6. Hazardous decomposition products

Carbon monoxide Carbon dioxide (CO2) Oxides of sulphur

Section 11: TOXICOLOGICAL INFORMATION

11.1. Information on toxicological effects

Information on Likely Routes of Exposure

Eye Contact No information available Skin contact No information available INGESTION No information available INHALATION No information available

Numerical Measures of Toxicity - Product Information

The following values are calculated based on chapter 3.1 of the GHS document

UNKNOWN ACUTE TOXICITY

0% of the mixture consists of ingredient(s) of unknown toxicity.

Numerical Measures of Toxicity - Component Information

| Chemical name | Oral LD50 | Dermal LD50 | Inhalation LC50 |
|---------------------------------------|--------------------|-------------|-----------------|
| Propanedioic acid, | = 1500 mg/kg (Rat) | | |
| [[3,5-bis(1,1-dimethylethyl)-4-hydrox | · · | | |
| yphenyl]methyl]butyl-, | | | |
| bis(1,2,2,6,6-pentamethyl-4-piperidi | | | |
| nyl) ester | | | |

Delayed and immediate effects as well as chronic effects from short and long-term exposure

| Skin Corrosion/Irritation | No information available | |
|---|--------------------------|--|
| Serious eye damage/eye irritation | No information available | |
| Skin Sensitisation | No information available | |
| Respiratory Sensitisation | No information available | |
| Germ Cell Mutagenicity | No information available | |
| Carcinogenicity | No information available | |
| Reproductive toxicity | No information available | |
| Specific target organ toxicity (single exposure) | No information available | |
| Specific target organ toxicity (repeated exposure) | No information available | |
| Propanedioic acid, [[3,5-bis(1,1-dimethylethyl)-4-hydroxyphenyl]methyl]butyl-, bis(1,2,2,6,6-pentamethyl-4-piperidinyl) | | |
| ester | | |
| lymph system, Liver, Spleen | | |

Aspiration Hazard

Not applicable

Section 12: ECOLOGICAL INFORMATION

12.1. Toxicity

Environmental Precautions

Prevent product from entering drains

12.2. Persistence and degradability

No information available.

12.3. Bioaccumulative potential

Bioaccumulation

No information available.

12.4. Mobility in soil

No information available.

12.5. Results of PBT and vPvB assessment

No information available.

12.6. Other adverse effects

No information available

13.1. Waste treatment methods

| Environmental Precautions | Prevent product from entering drains Keep out of waterways | | | | |
|--|---|--|--|--|--|
| Waste from Residues/Unused Products | Disposal should be in accordance with applicable regional, national and local laws and regulations | | | | |
| Contaminated Packaging | Improper disposal or reuse of this container may be dangerous and illegal Empty containers must be scrapped or reconditioned | | | | |
